INDEX TO VOLUME VIII

Abdomen, pneuperitoneum as an aid in the differentila diagnosis of diseases of the left half of the, 65.

Abdomino-Cardiac, reflex sign of Livierato, as a means for determining the tonicity of the myocardium, Abstract, 422.

ABSTRACTS:

Amreich, I., The histological changes incident to radium and *x*-ray treatment of uterine carcinoma, 692.

Antoine, E. (Paris), Case of "appendicular sciatica," 421.

General and radiologic study of simple duodenal ulcer, 420.

Baejter, F. H., Roentgenological aspects of lower right quadrant lesions, 210.

Becerro de Bengoa, Radium therapy of cancer of the uterus, 425.

Birch-Hirshchfield, Lesions produced in the human eye by roentgen rays, 554.

Bryan, Lloyd, The *x*-ray as an aid in diagnosis of non-tubercular pulmonary conditions, 214.

Carman, R. D., The roentgen diagnosis and localization of peptic ulcer, 42.

Case, James T., Surgical physiology and pathology of the colon from the *x*-ray standpoint, 552.

Chase, Sumner B., The roentgen ray in the diagnosis of sinus disease, 89.

Clagett, A. V., The treatment of goiter with radium, 45.

Curtis, Arthur H., Radium treatment in gynecology, 47.

Davis, J. S., The radical treatment of *x*-ray burns, 93.

Denis, W., A study of the relative toxic effects produced by regional radiation, 94.

Duncan, Rex, Epithelioma of the lip, with observations and results in the treatment of eighty consecutive cases with radium, 92.

Du Pont, J., Slight fractures of the base of the acetabulum, 421.

Eden, T. Watts, and Provis, F. Lionel, Record of seventy-six cases of uterine fibroids and chronic metritis treated by the *x*-rays, 352.

Edling, Dr. Lars, On plastic means of application in radium therapy, 620.

Eggleston, E. L., Critical review of 500 cases of gastric and duodenal ulcer, 693.

Ewing, James, The structure of nerve tissue tumors with reference to radium therapy, 352.

Fischel, E., The use of radium in carcinoma of the face, jaws and oral cavity, 47, 213.

Forsell, Gösta, A plate holder for precise roentgenography in connection with fluoroscopy, 619.

Frank, Louis, Carcinoma in the cervical stump after supravaginal hysterectomy; and the radium treatment of carcinoma of the cervix, 352.

Frankl, O., The histological changes incident to radium and *x*-ray treatment of uterine carcinoma, 692.

Friedenwald, Julius, Roentgenological aspects of lower right quadrant lesions, 210.

Funk. Elmer H., Malignant diseases of the lung, 550.

Griffin, C. E., Artificial menopause induced by the *x*-ray, 48.

Greenough, Robert B., The treatment of tumors by *x*-rays and radium, 208.

Gunning, R. E. Lee, *X*-ray manifestations of diseases of the chest, 94.

Hampeln, (Riga), Symptomatology and diagnosis of primary malignant growths of the lung, 422.

ABSTRACTS:

Haret, Radiotherapy of sciatica, new technique, 91.

Hansson, H., Case of fracture of the cranium with accumulation of air in the cranial cavity, 619.

Hawes, John B., 2nd, Broncho-esophageal fistula and traction diverticulum, 552.

Heiberg, K. A., and Strandberg, Ove., Microscopic examination of the mucous membrane of the nose on patients under treatment for lupus vulgaris with universal arc-light-baths, 620.

Helm, The tabetic stomach under *x*-rays, 424.

Houdmont, H., and Dautrebande, L., The radioscopic examination of the heart, 351.

Hubeny, M. J., *X*-ray treatment of exophthalmic goiter, 213.

Ivy, A. C., Studies on gastric and duodenal ulcer, 693.

Japiot, P., and Bussy, L., Radiotherapy in interstitial keratitis, 620.

Johansson, S., A case of osteogenesis imperfecta with extended arteriosclerotic changes, 619.

Johnson, F. Hernaman, The immunizing effects of *x*-rays in carcinoma, 424.

The use of *x*-rays as immunity-raising agents before and after operation for cancer, 212.

Judd, E. S., Jejunal ulcer, 690.

Kingery, Lyle B., Saturation in roentgen therapy—its estimation and maintenance, 154.

Klason, T., Hemophilia and hemophilic arthropathy, 619.

Knox,Robert, Treatment by *x*-rays and radium, 423.

X-rays in the diagnosis of tumors of the thorax, 550.

Kohlmann, W., Radium in carcinoma of the uterus, 691.

Krupp, D. D., The *x*-ray as an essential guide for producing artificial pneumothorax in advanced cases of pulmonary tuberculosis, 46.

Laborde, A., Apparatus employed in radium-therapy, 426.

Ledoux and Caillods, Sacralization of the fifth lumbar vertebra, 353.

Lehmann, J. J., Carcinoma dosage, with especial consideration of carcinoma of the breast, 354.

Leighton, W. E., Inoperable cancer, 213.

Livierato, P. E., (Genoa), The abdomino-cardiac reflex (sign of Livierato) as a means for determining the tonicity of the myocardium, 422.

Lovett, Robert W., and Wolbach, S. B., Roentgenographic appearance, diagnosis, and pathology of some obscure cases of bone lesions, 41.

Lumiere, A., The precision of radiographic images, 425.

Martin, Charles L., A study of the relative toxic effects produced by regional radiation, 94.

Marty, L. A., The modern treatment of malignancies, 46, 212.

Mayo, Charles H., The thyroid and its diseases, 551.

Menard and Postel and Contremoulins, Dangers of radiography to third persons, 554.

Morton, Reginald, *X*-ray radiation and cancer, 423.

Ormerod, F. C., On the treatment of oriental sore by *x*-rays, 91.

Paisseau and Solomon, Radiologic aspects of influenza, pneumonia and bronchopneumonia, 423.

Palefski, I. O., Intubation and visualization of the duodenum with the duodenal tube, 693.

Panner, H. J., On the *x*-ray examination of duodenal ulcer, 619.

Pontano, T., Contributa alla conoscenza clinica e radiologica della sifilide polmonare.—A. S. Giordano: R. D. Carman, 420.

ABSTRACTS:
Prime, Frederick, The effect of combined radiation and heat on neoplasms, 89.
Quick, Douglas, The combination of radium and the *x*-ray in certain types of carcinoma of the breast, 210.
Clinical results of treatment of nerve tissue tumors by radium, 351.
Rinehart, D. A., Evidence of gastrointestinal disease as revealed by roentgenological examination of the digestive tract, 46.
Roberts, D., The roentgen diagnosis of gall-bladder lesions, 694.
Roberts, J. E. H., Oxygen inflation of the peritoneal cavity for radiographic purposes, 354.
Roberts, Percy Willard, Syphilitic and tuberculous joints, 89.
Rohdenburg, G. L., The effect of combined radiation and heat on neoplasms, 89.
Schlecht, H., (Kiel), Relative values of occult blood and radiography in the diagnosis of cancer of the stomach, 422.
Schmitz, Henry, The indications for radium therapy in surgical conditions of the pelvic organs, 47.
Semon, H. C., The *x*-ray treatment of acne vulgaris, 214.
Sievert, Rolf M., The distribution of the intensity of the primary gamma-radiation in the neighborhood of medical radium preparations, 620.
Simon, Adhesions in the cecal tract diagnosed by *x*-rays, 425.
Simon, M., On the *x*-ray diagnosis of gallstones in the common duct, 619.
Sittenfield, M. J., New roentgenotherapy in cancer, 95.
Soiland, A., Cancer of the lip, 95.
Spencer, Hunter B., Roentgen therapy, 45.
Steindler, Arthur, Congenital malformations and deformities of the hand, 90.
Stevenson, Walter C., The effects of radium treatment on war injuries in the neighborhood of nerves, 353.
Ström, S., A case of arthropatia psoriatica, 619.
(Stockholm), Roentgen differential diagnosis between osteitis fibrosa, solitary bone-cyst and tumor, 424.
Taft, A. Robert, The comparative value of radium and *x*-rays in the treatment of keloid, nevi, Angioma, leukoplakia and other lesions of the skin and mucous membrane, 92.
The protection of roentgenologic workers, 550.
Truchot, Radiotherapy of sciatica, new technique, 91.
Ulrici, H., So-called hilus tuberculosis, 353.
Vilrande, G. E., Observations on the treatment of neoplasm, 213.
Vogt, Roentgenologic proof of extra uterine life, 622.
Warnekros, Attitude and mechanism of expulsion in breech presentation, 622.
Pregnancy and labor in roentgen pictures, 690.
Spontaneous change of position of full-term fetus during labor, 622.
The third stage of labor in roentgenograms, 621.
Weibel, Study of the third stage of labor in roentgenograms, 622.
(Vienna), Treatment of cancer of the uterus with the symmetry apparatus, 553.
Weinberg, Joseph A., The influence of the exposure of the roentgen ray on the progress of tuberculosis, 95.
Wilkins, W. A., The diagnostic of the *x*-ray examination in pulmonary tuberculosis, 93.

ABSTRACTS:
Withers, Sanford, Carcinoma of the eyelids treated with radium, 351.
Accessory sinuses, head-rest for the roentgenography of the, 402.
Acetabulum, the, slight fractures of the base of, 421.
Acne vulgaris. *x*-ray treatment of, Abstract, 214.
Adenoids, *x*-ray treatment of tonsils and, 25.
Adenocarcinoma of stomach revealed by roentgenograms, but not palpable on exploration by the surgeon, 480.
Adhesions in the cecal tract diagnosed by *x*-rays, Abstract, 425.
Acne vulgaris, roentgen-ray treatment of, 468.
Adult mammalian brain, effect of radium emanation on, 536.
Allison, R. G., The clinical importance of the different types of pulmonary tuberculosis as determined by roentgen examination, 103.
X-ray treatment of toxic goiter, 635.
Alvarez, Walter C., Peristalsis in health and disease (first Caldwell lecture), 1.
The use of CO_2 in pneumoperitoneum, 71.
American literature on radium and radium therapy prior to 1906, 766.
Aneurysm of the aorta and abscess of the tracheobronchial lymph glands, 269.
Apical field on the chest radiogram, a suggestion for improving the visibility of, 602.
Arthropatia psoriatica, a case of, Abstract, 619.

Bagg, Halsey J., The effect of radium emanation on the adult mammalian brain, 536.
Beard, A. H., *X*-ray treatment of toxic goiter, 635.
Blaine, Edward S., An *x*-ray burn of third degree followed by rapid healing, 183.
The roentgenological aspect of Sprengel's deformity, 654.
Boggs, Russell H., Treatment of carcinoma of the breast by imbedding radium supplemented by *x*-ray, 20.
Bone density, studies in reduction of, 355.
Bone lesion, roentgenographic appearance, diagnosis, and pathology of some obscure cases of, Abstract, 41.
Bonney, T. S., Dislocation of the semilunar bone, 24.
BOOK REVIEWS:
Assmann, Herbert, Die roentgendiagnostik der innern krankheiten, 786.
Blakewell, Charles M., Story of the American Red Cross in Italy, the, 40.
Carman, Russell D., The roentgen diagnosis of diseases of the alimentary canal, 549.
Dauvillier, A., Recherches spectrométrique, sur les rayons *x*, 87.
Holmes, George W., roentgen interpretation:—a manual for students and practitioners, 350.
Köhler, Dr. Alban, Grenzen des normalen und anfaenge des pathologischen im roentgenbilde, 284.
Keen, William Williams, Surgery, its principles and practice, 349.
Knox, Alice Vance, and Knox, Robert, General practice and *x*-rays. A handbook for the general practitioner and student, 419.
Law, Frederick M., Mastoids, roentgenologically considered, 689.
Overend, Walker, The radiography of the chest. Vol. 1.—Pulmonary tuberculosis, 207.
Ruggles, Howard E., Roentgen interpretation:—a manual for students and practitioners, 350.
Tousey, Sinclair, Medical electricity, roentgen rays, and radium, 549.

Boutros, Amin, A simple drying rack for films, 608.
Bowen, David Ralph, Some accessories to the Potter-Bucky diaphragm, 343.
Brain, effect of radium radiation on the adult mammalian, 536.
Gunshot injuries to the, 445.
Tumor, diagnosis of, by pneumoventriculography, 188.
Bray, H. A., A suggestion for improving the visibility of the apical field on the chest radiogram, 602.
Breast, radium in the treatment of carcinoma of, as an adjunct to surgery, 668.
Treatment of carcinoma of, by imbedding radium supplemented by *x*-ray, 20.
Breech presentation, attitude and mechanism of expulsion in, Abstract, 622.
Bronchiectasis and lung abscess after direct injection of bismuth mixture through the bronchoscope, roentgenographic studies of, 49.
Broncho-esophageal fistula and traction diverticulum, Abstract, 552.
Bronchus, foreign body in, for fifteen years, 191.
Bryan, Lloyd, Preliminary report on the effects of roentgen rays on gastric hyperacidity, 623.
Bucky diaphragm principle applied to radiology of the spine, 61.

Calcification, intracranial, 77.
Caldwell lecture, first: Peristalsis in health and disease, 1.
Cancer, inoperable, Abstract, 213.
New roentgenography in, Abstract, 95.
Of the rectum, the treatment of, by radium, 746.
Of the stomach, relative values of occult blood and radiography in the diagnosis of, Abstract, 422.
Of the uterus, radium therapy of, Abstract, 425.
Treatment of, with the symmetry apparatus, Abstract, 553.
Personal experience with the application of the newer roentgen therapy in, 232.
X-ray radiation and, Abstract, 423.
Carcinoma, histological changes incident to radium and *x*-ray treatment of uterine, Abstract, 692.
Immunizing effects of *x*-rays in, Abstract, 424.
In the cervical stump after supravaginal hysterectomy; and the radium treatment of carcinoma of the cervix, Abstract, 352.
Of the breast, carcinoma dosage, with especial consideration of, Abstract, 354.
Combination of radium and the *x*-ray in certain types of, Abstract, 210.
Radium combined with *x*-ray treatment in, 661.
Treatment of, by imbedding radium supplemented by *x*-ray, 20.
Of the cervix, a histological study of the effects of radium on, 604.
Of the eyelids treated with radium, Abstract, 351.
Of the face, jaws and oral cavity, the use of radium in, Abstract, 47, 213.
Cardiac studies, roentgen ray, 295.
Carman, Russell D., adenocarcinoma of the stomach revealed by roentgenograms but not palpable on exploration by the surgeon, 480.
Aneurysm of the aorta and abscess of the tracheobronchial lymph qlands, 269.
Benign and malignant gastric ulcers from a roentgenologic viewpoint, 695.
Hemangioma of the duodenum, 481.
Making and filing of records in the section on roentgenology in the Mayo Clinic, 372.
Case, James T., A review of three years' work and articles on pneumoperitoneum, 714.
Cecum and ascending colon, developmental rests in, and their roentgen-ray diagnosis, 643.

Neoplasm, observations on the treatment of, Abstract, 213.
Effect of combined radiation and heat on, Abstract, 89.
Pulmonary, an unusual case of, 555.
Nerve tissue, tumors in relation to treatment by radiation, 497.
Newell, R. R., Pelvimetry by means of the roentgen ray, 272.
Non-tubercular pulmonary conditions, the *x*-rays as an aid in diagnosis of, Abstract, 214.
Norris, Charles C. and Rothschild, Norman S., A histological study of the effects of radium on carcinoma of the cervix, 604.

Oriental sore, on the treatment of, by *x*-rays, Abstract, 91.
Osteochondromata, multiple, 462.
Osteogenesis imperfecta with extended arteriosclerotic changes, Abstract, 619.
Osteoma, report of a case of, 483.
Osteosarcoma, report of a case of, 565.

Papillomata, intralaryngeal application of radium for chronic, 155.
Payne, R. A., Developmental rests in cecum and ascending colon and their roentgen-ray diagnosis, 643.
Pelvimetry by means of the roentgen ray, 272.
Pelvis, fracture of, 511.
Pneumoperitoneum of the, gynecological studies, 12.

Peristalsis in health and disease, (first Caldwell lecture), 1.
Peritoneal cavity, oxygen inflation of, for radiographic purposes, Abstract, 354.
Peterson, Reuben, Pneumoperitoneum of the pelvis, gynecological studies, 12.
Peterson, William F., Selective organ stimulation by roentgen rays: enzyme mobilization, 175.
Pfahler, George E., An inexpensive radium capsule holder, 30.
A new device for increasing the protection of both the patient and the roentgenologist, 239.
A simple device to prevent the omission of filters in deep roentgen therapy, 780.
Clinical results from the newer technique of deep roentgentherapy in malignant diseases, 236.
New roentgenographic technique for the study of the thyroid, 81.
Radium combined with *x*-ray treatment in carcinoma of the breast, 661.
Pfender, C. A., Washington, 409.
Phemister, D. B., Studies in reduction of bone density, 355.
Physics to radiation therapy, the relation of the science of, 285.
Pillsbury, Henry C., *X*-ray findings in the chronic gas cases, 193.
Pirie, A. Howard, A retinometer, 75.
Extra bones in the wrist and ankle found by roentgen rays, 569.
Plateholder for precise roentgenography in connection with fluoroscopy, Abstract, 619.
Pneumocranium, traumatic, 73.
Pneumoperitoneum, A review of three years' work and articles on, 714.
As an aid in the differential diagnosis of diseases of the left half of the abdomen, 65.
Of the pelvis, 12.
Subphrenic, produced by intra-uterine insufflation of oxygen as a test of patency of the falliopian tubes in sterility and allied gynecological conditions, 120.
Technique, a table designed for the simplification of, 404.
The detection of retroperitoneal masses by the aid of, 129.
Use of CO_2 in, 71.
Pneumoventriculography, diagnosis of a brain tumor by, 188.
Potter-Bucky diaphragm, some accessories to the, 343.
Potter, Hollis E., Bucky diaphragm principle applied to radiography of the spine, 61.
Pott's disease, suboccipital, 632.
Pritchard, J. S., An unusual case of pulmonary neoplasm, 555.
Prophylactic *x*-ray treatments, the value of, 199.
Protection of both the patient and roentgenologist, new device for increasing, 239.
Pulmonary neoplasm, an unusual case of, 555.
Tuberculosis as detemined by roentgen examination, clinical importance of the different types of, 103.
The diagnostic value of the *x*-ray examination in, Abstract, 93.
X-ray examination of the chest and an *x*-ray classification of, 427.
X-ray treatment of, 241.
Pyloric sphincter, observations of the behavior of the normal, in man, 158.

Quick, Douglas, The treatment of cancer of the rectum by radium, 746.

Radiation, (super) and delayed reactions, 466.
A study of the relative toxic effects produced by regional, Abstract, 94.
Scattered, remarks on the measurements of, 338.
Therapy, the relation of the science of physics to, 285.
Total, falling on surfaces exposed to point sources, 390.
Tumors of nerve tissue in relation to treatment by, 497.
Radiographic exposures, reduction of, to one twenty-fifth of the normal amount by means of the 'Impex" *x*-ray plate, 528.
Findings and their pathologic basis, syphilis of the lungs, 502.
Images, precision of, Abstract, 425.
Radiographing upper molar, a modification of technique for, 659.
Radiography, dangers of, to third persons, Abstract, 554.
Intensity of scattered x-rays in, 328.
Of the mastoid, 399.
Of the spine, the Bucky diaphragm principle applied to, 61.
The effects of scattered *x*-rays in, 589.
Radiologic aspects of influenza, pneumonia and bronchopneumonia, Abstract, 423.
Radioscopic (the) examination of the heart, Abstract, 351.
Radiotherapy in interstitial keratitis, Abstract, 620.
Collateral treatment of malignant patients undergoing, 138.
Radium and radium therapy prior to 1906, American literature on, 766.
And *x*-rays in the treatment of keloid, nevi, angioma, leukoplakia and other lesions of the skin and mucous membrane, comparative value of, Abstract, 92.
Capsule holder, an inexpensive, 30.
Clinical results of treatment of nerve tissue tumors by, Abstract, 351.
Combined with *x*-ray treatment in carcinoma of the breast, 661.
Emanation, the effect of, on the adult mammalian brain, 536.
In carcinoma of the uterus, Abstract, 691.
In the treatment of carcinoma of the breast as an adjunct to surgery, 668.
Intralaryngeal application for chronic papillomata, 155.
On carcinoma of the cervix, a histological study of the effects of, 604.
Therapy, on plastic means of application in, Abstract, 620.
Radiations, absorption of, by tissues, 215.
Supplemented by *x*-ray, the treatment of carcinoma of the breast by imbedding, 20.
Therapy, apparatus employed in, Abstract, 426.
Dosage in, 674.
In surgical conditions of the pelvic organs, the indications for, Abstract, 47.
Of cancer of the uterus, Abstract, 425.
The treatment of cancer of the rectum by, 746.
The treatment of goiter with, Abstract, 45.
Treatment in gynecology, Abstract, 47.
On war injuries in the neighborhood of nerves, the effects of, Abstract, 353.
Pathological classification of thyroid gland diseases with, in toxic goiter, 755.
Use of, in treatment of myxomatous nasal polyps, preliminary report, 407.
Record of seventy-six cases of uterine fibroids and chronic metritis treated by the *x*-rays, Abstract, 352.

Rectum, Treatment of cancer of, by radium, 746.
Retinometer, A, 75.
Retroperitoneal masses, Detection of, by aid of pneumoperitoneum, 129.
Reynolds, L., Observations on the behavior of the normal pyloric sphincter in man, 158.
Richards, Charles M., Suboccipital Pott's disease, 632.
Two cases of lymphatic disease in the same family, with roentgen findings, 514.
Roentgen diagnosis and localization of peptic ulcer, Abstract, 42.
Of diseases of the heart and its vascular pedicle, some recent advances made in France on the technique of, 491.
Roentgen differential diagnosis between osteitis fibrosis, solitary bone cyst an tumor, Abstract, 424.
Roentgen examination, clinical importance of the different types of pulmonary tuberculosis as determined by, 103.
Of the gastro-intestinal tract, analysis of eleven hundred, 315.
Findings, two cases of lymphatic diseases in the same family with, 514.
Roentgenographic appearance, diagnosis, and pathology of some obscure cases of bone lesions, Abstract, 41.
Studies of bronchiectasis and lung abscess after direct injection of bismuth mixture through the bronchoscope, 49.
(New) technique for the study of the thyroid, 81.
Roentgenograms, study of the third stage of labor, in, Abstract, 622.
The third stage of labor in, Abstract, 621.
Roentgenologic proof of extrauterine life, Abstract, 622.
Viewpoint, benign and malignant gastric ulcer from a, 695.
Workers, the protection of, Abstract, 550.
Roentgenological aspects of lower right quadrant lessions, Abstract, 210.
Aspect of Sprengel's deformity, 654.
Studies of injected kidneys, 704.
Roentgenologist, new device for increasing the protection of both the patient and the, 239.
Roentgenology in the Mayo Clinic, making and filing of records in the, 372.
Roentgenotherapy, the practical application of the sphere gap to, 195.
Roentgen pictures, pregnancy and labor in, Abstract, 690.
Study of dust inhalation in the granite industry, 244.
Roentgen therapy, Abstract, 45.
A simple device to prevent the omission of filters in deep, 780.
In cancer, personal experience with application of newer, 232.
Deep, in malignant diseases, clinical results from the newer technique of, 236.
Deep, present problems and future prospects of, 276.
Saturation in, its estimation and maintenance, Abstract, 154.
Roentgen-ray cardiac studies, 295.
Diagnosis, developmental rests in cecum and ascending colon and their, 643.
Extra bones in the wrist and ankle found by, 569.
In the diagnosis of sinus disease, Abstract, 89.
On gastric hyperacidity, preliminary report on the effects of, 623.
Pelvimetry by means of the, 272.
Selective organ stimulation by: engine mobilization, 175.
Roentgen-ray study of granite dust inhalation, Dunham's fans in a, 560.
Treatment of acne vulgaris, 468.
Of the eczema group, 520.
Rubin, I. C., Manometer and flow volumeter for transuterine peritoneal inflation to determine patency of fallopian tubes in cases of sterility, 459.
Subphrenic pneumoperitoneum produced by intrauterine insufflation of oxygen as a test of patency of the falliopian tubes in sterility and allied gynecological conditions, 120.
